## DETAILED ACTION

### *EXAMINER'S AMENDMENT*

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Terrance Meador on November 18, 2004.

The application has been amended as follows:

### *IN THE CLAIM*

A. Claims 19-21 cancelled.

### *Allowable Subject Matter*

2. Claims 1-18 are allowed.

3. The following is an examiner's statement of reasons for allowance: The prior art fails to show a method executable by a programmed processor for generating a binary Gray code, comprising: finding the largest value  $M$  such that the rightmost bit changes between code word  $c_{M-2}^n$  and  $c_{M-1}^n$ ; and forming  $4M$  code words of  $C^{n+2}$  by extending the first  $M$  code words of  $C^n$  by a single bit at each end, with reversals in the order of the code words of  $C^n$  as required to yield an extended code  $X$  as called in claims 1 and 10; if  $n$  is equal to or less than 3, selecting a predetermined code table containing 2, 4, or 8 code words, in which the predetermined tables having 4 or eight code words are characterized by at least a second property that, in each consecutive group of three consecutive code words, the first and third code words differ in only two adjacent coordinate positions; and if  $n$  is even, selecting the predetermined code table containing 4 code words as a first code table, or if  $n$  is odd, selecting the predetermined code table with 8 code words as the first code table; and then forming a second code

table from the first (3L/4+2) code words in the first code table; and forming a fifth code table by reversing the order of code words in the second code table as called for in claims 7 and 16. Therefore, claims 1-18 are presently allowed.

### ***Conclusion***

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John B. Nguyen whose telephone number is (571) 271-1808. The examiner can normally be reached on 8AM-4:30 PM M-F.
